

# **FLUID** **DYNAMICS**

*Lubricant and Manufacturing Sustainability*

**1 (800) 237-1862**

## **LUBRICANT RECLAMATION, FILTERING AND DEHYDRATION SERVICES**

Reduce Oil Spend, Recycle Waste and Improve Component Life

### **PRE-FILTRATION: COLLECT AND SEGREGATE WASTE STREAMS**

- Quarantine contaminated oil
- Gather samples
- Test for ISO:4406 particle count, water content and viscosity against product MSDS

### **FILTRATION: FILTER AND DEHYDRATE OIL**

- Filter contaminants to improve to target ISO: 4406 code
- Dehydrate and remove free-standing water and drastically reduce dissolved water

### **ANALYZE AND REINTRODUCE OIL TO SYSTEM**

- Test reclaimed oil for ISO:4406 particle count, water content and viscosity against product MSDS
- Reintroduce reclaimed oil into existing system

**Please call for a  
filtration consultation**
